

DETAILS OF MAINTENANCE		
Start Time	Date	31-10-2007
End Time	Date	07-11-2007
Reason	SMW3 Consortium has a planned outage for Segment S-4.1 (Singapore – Indonesia) to repair sea cable shunt fault near Medan Cable Station (Indonesia).	
Total Services Outage/Down Time	Traffic will be shifted on western segment links of SMW3 & SMW4. Total available bandwidth during outage will be 4038 Mbps.	
Service Impact	Slight degradation in service in terms of latency may be experienced for eastern segment traffic only.
